REMARKS

Applicant would like to thank Examiner Pollack for the courtesy of a helpful in-person interview on January 8, 2009. At the interview, the general nature of the patent application was described and discussed and proposed claims were presented. Examiner Pollack indicated that the concepts provided in the proposed claims overcame the present art of record and in particular Jakobson et al. (U.S. 6,766,368), but that a new search would be necessary. No agreement was reached with respect to the proposed claim language.
